\*\*\* The graduation rate is calculated based on the number of students who received a credential in the calendar years of 2021 and 2022 divided by the number of students who enrolled during that same time period. The graduate placement rate is calculated based on those students who graduated from a program in the calendar years of 2021 and 2022 and were placed within 180 days from the end of each calendar year. The graduate placement formula published in 940 CMR 31.00 does not allow for Lincoln Technical Institute to remove graduates from the calculation including, but not limited to, those who continue their education at another institution of higher education or have health conditions that would preclude them from working.

Employment statistics substantiating these placement rates are available for inspection on request.

Lincoln Tech has no existing agreement with employers to provide jobs to students and does not guarantee employment.

By initialing here \_\_\_\_\_, I acknowledge that I have received the current school catalog and had an opportunity to review it prior to signing the ENROLLMENT AGREEMENT.
